

NOVIA

Novia 1200 Damp Proof Membrane

Description

This product is a blown polythene material, suitable for use as a Damp Proof Membrane in solid concrete ground floors that are not subject to hydrostatic pressure. It is important to ensure that installation is carried out in accordance with Clause 11 of CP 102 : 1973, and the relevant clauses of BS 8000-4 : 1989.

We also advise the use of Novia compatible butyl sealing tapes to ensure a complete seal is maintained throughout the entire life of the product. It is very important that the product is not damaged during installation, and that all breaks or damage to the membrane, intentional or otherwise, are fully sealed.

Other sizes and thickness are also available to order.

Properties

Length	25m
Width	4m, c-folded
Material	Recycled Polythene
Roll weight	27.6 kg
Area per roll	100m ²
Colour	Black
Material Thickness	1200 Gauge / 300 Micron (nominal)
Packaging	Clear polybag wrapper
